

Come Find Me
Larry and Leslie Latour

(M) Out across the stars
Maybe in a latte line
Somewhere near the city
Have we met

(F) It's not impossible
You're out there in the universe
maybe way past Jupiter
and yet

(M) somewhere in between our this
time,
last life and the next
I'll see you in my dreams and then
you're gone

(F) I feel like you've been diggin
through my personal effects
you've been working hard to be the
one
That I can count upon

(T) To keep me hanging on

(Chorus)

(M) Come find me
(F) I'm waiting
I'll be there

(M) Come find me
(F) Are u there somewhere?

(M) Come find me
(M) I feel you in my dreams
(F) Or somewhere in between

(T) Come find me
I'll be there

(M) I caught your gaze
Through gentle hazy memories
(I try) to catch them when they land
But then their gone

(F) Dreams they only last so long
Then fade away to yesterday
I just can't remember details
Accidently come upon

But they keep me hanging on

(Chorus)

(M) I'm thinking once that we were
friends

Right down to the bitter end

(F) We held each other up through
thick and thin

(M) Could be impossible

(F) But I don't think so FRIEND

(T) carryin' on across the stars
To begin it all again.

And that's ok I'm all in

(Chorus 2x)
