

The Phase of My Life – capo 5 drop D

Larry and Leslie Latour

I'm in the (D) phase of my life... (Bm) (wait)
Where I have (E7) everything I want (A7sus4)
you know the (D) ways of my life
Are the (Bm) ways that I like
Like a cup of (E7) coffee and
A sweet (A7sus4) croissant

But it (Bm) don't mean a thing
Without the curl of your hair
And warmth of your touch
That Let's me (E7) know that you're there
And you're (Em7) There everywhere
(A7sus4)

I'm in the phase of my life
Where I'm slowing on down
Just hangin around
Maybe A little walk into town

I do what I like
A little song here and there
Maybe a little tune 'bout a fair
And dogs everywhere

But it don't mean a thing
Without that glint in your eye
The curl of your smile
The tears when you cry
Just you and I

Oh (G) where were (D/F#) you
(G) When We were young (D/F#)
Oh (G) where were (D/F#) you
out (E7) there among The (A7sus4) lovers

We would have (G) climbed every mountain
(D/F#) Swam every sea
(E7) Crossed every desert
(A7sus4) Just you and me
Oh (G) where were (D/F#) you
When we were (G) young
When we were (D/F#) young
When we were (E7) young... (A7sus4)

I'm in the phase of my life
With most of that gone
Coming upon

This life that we're on

I'm in the phase of my life
Where I found you at last
With you I am blessed
I can leave all the rest

You know it don't mean a thing
Without that warmth of your kiss
That silly old smile
That I just can't resist
Just you and I

Here we are
A little older than younger
Here we are
How'd we get here I wonder
We could've raised us some hell
But you're still here in my arms
A lot of songs have been sung
And we're still together
Here we are

Just you and I
Under a starry sky
We both can fly
